## Incoming Inspection & Supplier Score Card

The supplier scorecard is the period-level performance summary. One row per supplier per period (enter the period as "Q1 2026" etc.). Lots Received, Accepted, Rejected, Total Defectives and Total Sampled are counted automatically from the Incoming Inspection sheet for that supplier and quarter; On-Time Deliveries, Total Deliveries and the SCAR counts are entered by hand. The rates, Overall Score and Rating are calculated.
